Cedar Lawn Nursing Home

Cedar Lawn is a stately manor house situated in pleasant grounds 1 mile from the bustling market town of Romsey on the edge of the New Forest.

Registered for general nursing care

Sentinel

HEALTH CARE

www.sentinel-healthcare.com

respite and palliative care for residents over 65. The original house has been modernised and refurbished to retain its comfort and character whilst incorporating the very latest equipment expected of a modern nursing home.

The result is a charming 'country house hotel' atmosphere coupled with the very highest standards of care.

Standards which are maintained by selecting staff who complement

their training and experience with empathy and professionalism.

This ensures Residents needs are met with dignity and respect for their individuality and self esteem.

Person Centred Care is the philosophy we promote within all our homes.

Staff are trained in this approach and bring kindness, compassion and patience to those in their care, promoting choice, independence

and dignity at all times. Each Resident has an individual personalised support plan which is initially developed with the Resident and their family. This support plan is constantly reviewed to reflect the changing needs of the Resident.

Our chefs prepare nutritious and delicious meals in the home's modern kitchen using home grown and fresh local produce whenever possible. Specialist diets are catered for plus themed meals celebrate important events and different cultures.

Our specialist activity co-ordinators organise group or individual activities both inside and outside the home. Plus our own mini bus runs regular trips to the shops, local events churches and pubs.

Two elegant lounges offer a warm and comfortable environment for the Residents to relax in and the bright and airy dining room provides an elegant dining experience.

The 30 bedrooms are tastefully and individually decorated. They all have nurse call systems, wall mounted TV's and profiling beds for comfort and ease. The rooms are light, airy and very attractively furnished.

However, Residents are welcome to bring their own furniture, pictures and personal effects to make their room as familiar as possible.

Finally hairdressing, physiotherapy, chiropody, dental, optical and

personal laundry services are also all available within the home.
